How To Add Common Toilet Accessibility Under List Of Value In Settings

A list of values or LOV is a common value that is used in different data entry screens and is shown in a dropdown list for selection. Different schools in different countries might need to adjust these values based on their requirements so the system allows an administrator to add/edit these values.

To add Common Toilet Accessibility Type, navigate to:

Menu Bar >> Settings >> List of Values

Click '**+ Add Common Toilet Accessibility Type** '.

Fill in the Toilet Type and click Submit

Note: You must fill in the actual functional toilet types you have in your school to provide accurate information to parents

Once saved, the data will look like this:

Note: The system shows the name of the person who created a record and also the name and date when a record was updated.

If a value is assigned to a record, that value cannot be deleted. Only the name can be edited.
