

How To Add Preference In School Settings

When you need to add data for the school fields you can navigate to the settings on the menu bar and find the school on top.

Menu Bar >> Settings >> School

Click on Preference.

In Preference, you need to set your login preference (sample data given):

1. The number of login failures allowed before the account is disabled
2. Maximum inactive days are allowed before the account is disabled

Click Submit to save.
