

How To Add Race Under List Of Value In Settings

A list of values or LOV is a common value that is used in different data entry screens and is shown in a dropdown list for selection. Different schools in different countries might need to adjust these values based on their requirements so the system allows an administrator to add/edit these values.

Navigate to:

Menu Bar >> Settings >> List of Values

The list of Race is created as a system default that can be edited or deleted as per your requirements.

Click on the  pencil mark to edit and the  trash can to delete.

To create a new Race, click '+ **Add Race**'.

Fill in the Title and click Submit

Note: The system shows the name of the person who created a record and also the name and date when a record was updated.

If a value is assigned to a record, that value cannot be deleted. Only the name can be edited.
