# How To Addedit Ethnicity Under List Of Value In Settings

# How to Add/Edit Ethnicity under List of Value in settings

# How to Add/Edit Ethnicity under List of Value in settings

A list of values or LOV is a common value that is used in different data entry screens and is shown in a dropdown list for selection. Different schools in different countries might need to adjust these values based on their requirements so the system allows an administrator to add/edit these values.

Navigate to:

**Menu Bar >> Settings >> List of Values**

The list of Ethnicity is created as a system default that can be edited or deleted as per your requirements.

Click on the pencil mark to edit and the  trash can to delete.

To create a new Ethnicity, click '**+ Add Ethnicity** '.

Fill in the Title and click Submit

*Note: The system shows the name of the person who created a record and also the name and date when a record was updated.*

*If a value is assigned to a record, that value cannot be deleted. Only the name can be edited.*
